I'm resending—let me know if you can open these.

On Wednesday I'm available at 9:15am HT/2:15pm ET, if that works for you. Otherwise, not until 6pm your time.

Yes. I can give you a call tomorrow if you are available. Also, I am unable to open the first 2 word documents. Can you
 at Ex. 6 Personal Privacy (PP) if he can resend or I can contact him directly if that is easier.

Thanks, Brittany. At your convenience, I'd appreciate any update that you're in a position to offer concerning the status of the investigation.

Paul

Hi Brittany,

I'm attaching the following:

(1) a review by Ex. 6 Personal Privacy (PP) health findings in the Kaua'i Joint Fact Finding report;

(2) graphs illustrating some of those findings, about which Ex. 6 Personal Privacy (PP) asked me to inform you:

“The school graphs show the three school districts on Kauai. The district entitled Waimea, for the purpose of these graphs, contains only the two elementary schools which are in the geographic areas with the most pesticide spraying. The high school and middle school graphs are by school as each school district has just has one high school and one middle school. Waimea High and Waimea Canyon School are the two schools in the pesticide spraying areas.

The percentage refers to the percentage of each school population with the problem being graphed. There is some transferring of students into other districts due to capabilities in certain schools and the graphs have been adjusted for these out of district transfers.

I can send the raw data, if it would be helpful.”

(3) written statements from four residents of areas in west Kaua’i near sprayed fields.

Paul
